This is in standard tuning although S.M. is using a different tuning, this is the harmony from the Bass. Use open voicings for the verse and then Power chords (i.e. C = 8 10 10 x x x ) for the chorus. Play along for the rhythm. The slide guitar part sounds cool because its a bit out of tune with S.Ms guitar.

If someone figures out the actual tuning /voicing for this from watching his fingers at a show, please e-mail me. They use this on a lot of tunes.
