Ocean s Eye - Peace

Em (throughout verses)

i can taste it on your breath, it s running through your veins
it never seemed so dense, blood don t taste the same
i m idlin through the dunes, swallowing the sand
slowly starts to bruise, the sun is in your hand

C G D
it seems like everybody s got their own little lie
Em Em
she stole my mind through the ocean s eye
C G D
and it seems that she only learned to read between the lines
Em Em
across my heart if you hope to die

Em (throughout verse)

i can say it s clear, just ask me what i saw
crash in from a window, just open up the door
people on the mantelpiece in my ocean s eye
i don t want you to be hurt but all you do is cry

C G D
it seems like everybody s got their own little lie
Em Em
she stole my mind with the ocean s eye
C G D
and it seems that she only learned to read between the lines
Em Em
across my heart if you hope to die
C G D
it seems like everybody s got their own little lie
Em Em
she stole my mind with the ocean s eye
C G D
and it seems that she only learned to read between the lines
Em Em
across my heart if you hope to die
