

The End
Pearl Jam

F# **C#**
What were all those dream we shared
Ebm **F#**
Those many year ago
F# **C#**
What were all those plans we made
Ebm **F#**
Now left beside the road
B **F#**
Behind us in the road

F# **C#**
More than friends I always pledged
Ebm **F#**
Cause friends they come and go
F# **C#**
People change as does everything
Ebm **F#**
I wanted to grow old
B **F#**
Just want to grow old

F# **B** **F#**
slide on next to me
B **Ab**
I m just a human being
B **Ebm**
I will take the blame
C#
But just the same
B
This is not me
You see
Believe
F#
I m better then this
B **F#**
Don t leave me so cold
B **Ab**
Or buried beneath the stones
B **Ebm**
I just want to old on
C# **B**
And know I m worth your love
Enough
I don t think
F#

There s such a thing

F# **C#**
It s my fault, Now I been caught
Ebm **F#**
A sickness in my bones
F# **C#**
How it pains to leave you here
Ebm **F#**
With the kids on your own
B **F#**
Just don t let me go

F# **B** **F#**
Help me see myself
B **Ab**
Cause I can no longer tell
B **Ebm**
Looking out from the inside of
C# **B**
The bottom of a well
It s hell
I yell

F#
But no one hears before
B **F#**
I disappear
B **Ab**
Whisper in my ear
B **Ebm**
Give me something to echo
C# **B**
In my unknown futures ear

My dear
The End
Comes near
I m here
F#
But not much longer
