

Lullaby

Pedro the Lion

As an amateur/novice guitar player, when I try to pick and sing at the same time, I always screw it up, so I decided to figure out how to play one of my favorite songs with chords, and none of that pesky picking. Although I still pick out the into/outro.

Verse:

C **Am**
The sun shines and leaves blow
F **G**
And my hope like autumn is turning brown
C **Am** **F** **G**
I know it seems like I m always falling down

Prechorus:

Am **F**
But it does not matter to me
C **G**
Although it seems like it should
Em **Am** **F** **G**
It s because I know I m understood when I hear Him say

Chorus:

C **G**
Rest in me little David
Am **Em**
And dry all your tears
F **C**
You can lay down your armor
F **G**
And have no fear
Am **F**
Cause I m always here
C **G**
When you re tired of running
F **G** **C**
And I m all the strength that you need

Second verse: (same as the first)

It s uphill both ways
Tomorrow I swear I won t act this way
And I know it seems like that is what I always say

(Prechorus)

(Chorus)

Outro: (I like to bar these)

C **C/B**

Am **G**
You know I want to be like Jesus

Dm **F**
But it seems so very far away

C **Em** **G**
When will I learn to obey

F
Obey

It may not be 100% spot on, so feel free to comment or make corrections.
(This is my first submission, so be gentle.)
