**Hold Your Colour**
**Pendulum**

starts just before the chorus

```
G|--------------------|
D|--------------------|
A|--------------------|
E|-33333--111--33333---|
```

repeat as many times as necessary

from here on I won t write the mumber of times you play each note, as they are
played so
and often that it would take up too much room. You can hear how many times you
play
note if you listen to the song.

chorus + verse:

```
G|--------------------|
D|--------------------|
A|--------------------|
E|-3--1--3--1--6--8--1-|
```
