Brothers by Penny and Sparrow

Capo 1

Chord shapes used here (in reference to the capo):

Eb - 022100

Ebsus4 - 022200 (hammer on pinky)

G# - 077600

Bb - 099800

Fm - 044200

Cm - 0(11)(11)900

These are the shapes that the band uses in their Youtube video of this song (which actually has no capo).

Listen carefully and you can pick out when to throw on the Esus4 and when exactly

to change chords, it can be a little tricky.

This may not be completely perfect, but it s as close as I can get it.
