

Sister Song
Perfume Genius

I sort of figured this out because I really wanted to learn it but couldn't find music for it anyway. I think it's basically right.

INTRO:
(this is the plinky piano part)

```
E-----|
B-5-7-9-9-7-5-5-5----5-7-9-12-12----5-7-9-9-2-2-0----5-7-9-12-12----|
G-----|
D-----|
A-----|
E -----|
```

You could add a bass note on the low E just by playing it open once at the start of every little riff. It sounds okay like, just something to play around with.

```
      E      E
Drive on, drive on

      A      E
My special one

      E      E      B
Don't you stop til you know you're gone

      E      E      A      E
Your sister and me have a set of keys

      E      B
Don't you worry your head about a thing

      E      E
Drive on, drive on

      A      E
My special one

      E      B      E
Don't you stop til you know you're gone

      E      E      B
Drive on, drive on

      A      E
My special one

      E      E      B
Don't you stop til you know you're gone

      E      E      A      E
Your sister and me will keep your place clean

      E      B
so it shines when you finally come home
```

E **E**
Drive on, drive on
 A **E**
My special one
 E **B** **E**
Don t you stop til you know you re gone

Enjoy!
