Fm **Bb**
Chinatown for opium and tea
[**Bb**] **Cm**
And she always brought me flowers

(etc.)

Bb **A**

D **B**
Lady don't you fall backwards
Em **A**

*Couldn't figure out the very first chord, closest I got was E9.
Also he switches up the chord progression a little towards the end;
I didn't tab out the switch cuz I couldn't figure out one of the chords "if you figure out either of those spots please let me know.
Other than that it sounds identical to the CD version, unlike the only other tab I could find for this song. Enjoy!*
