

Fiji Boy Part Vii
Peter and the Wolf

This is my first tabs, I tried to do it by ear, so please correct me if I m
wrong,
it s one of my favourite songs and I felt it needed to be put up.

It s best if you listen to the song, so you get an idea of the strumming
technique.

Capo II

G **B**

Oh I see you kids, they come from all over

D **A**

Like waves rolling on the shore

Threw their credit cards into the water

They won t be going back no more

I believe this could my future

I wanna live that way

Hands in the sky

Throwing their hands in the sky

Said the boy in the palm tree

To the travelling business man

I sure like your suit and tie

Why don t you share a mango with the sand

Say, take a minute, yes, take an hour

We were given all this world

Hands in the sky

Throwing their hands in the sky

G

B

D

A

Surely this is the scene where I belong

Surely this I been chasing all along

Hands in the sky, hands in the sky
