

Every Other Night
Peter Bjorn and John

[Verse 1]

Every other night
When the last light of your life hits your eyes
Every other night
There s a feeling that we re bound to make it right

[Pre-Chorus 1]

I need a ghostwriter
To make my words brighter
Cause every single day I lean over to the shadows

[Chorus]

Don t sleep in our footsteps, ooh
Cause we re running with the devil
Don t slide into regress, ooh
There s too much to unravel

[Post-Chorus 1]

I was breathing, gave you a promise
From now on I would only be honest
Kicking myself in the morning
Kicking myself at night

[Verse 2]

Every other day
When you open up you eyes and shake your head
Every other day
When you wake up and regret the things you said
