A Call I Hear Chords

The song is in the key of D#, so put a capo on the first fret if you are playing along with the recording, outside of that, simple song, fun to play, pretty quick. Not much else to say, Enjoy!

Verse:

D **D maj7**
See that little hill on the side of the town
 G **A**
Go on up and climb it and turn back around
 G **F#min**
Catch your breath and miles and miles of fields
 Emin **A** stop
And youâ€™d feel safe there

Verse variation: (barely)

D **Dmaj7**
And there alone you kneel and you feel indeed
 G **A**
You wanna go and help every soul that you see
 G **F#min**
You wanna go and share what you know inside
 Emin **A**
And show you love them

Bridge:

G **F#min** **G** **D**
Out beyond this home so dear
G **F#min** **G** **A** **D**
Thereâ€™s another call I hear

Chorus:

D **Dmaj7** **G**
And the river turn to sea
 A **D**
And the stars smile back at me
 Dmaj7 **G**
And little butterflies inside now
 A **G**
And a hope that I m coming back

Verse

And I remember days when you laughed so hard
We walked along the roads in the country so far
I remember children and sounds in the street
And we belonged there

Verse variation

And then the broken man in his house one day
He said he wasn't sure if he knew how to pray
Then he tried and said what's in his heart
So pure and easy

Bridge

Slowly turn around and see
There's a part of them in me

Chorus

Now the birds are flying home
Through the hills above the storm
And I know that I should follow
But it's hard to say goodbye

Chorus

And the river turns to sea
And the stars smile back at me
And all the butterflies are gone now
But it's time to come back home now

G F#min

I'm coming back now

G F#min

I'm coming back now

G F#min **Em** **D**

I'm coming home
