No doubt
Petra

(capo on 2)

(intro)
```
E |---2-----------2--0--------------0-------------|------0-----
B |--------3----------------------3-------3-------|---3--------
G |------2-------1-------1----0-------------------|-----------  (x2)
D |---0---------------------0----------0------|------------
A |-------------------------------------------|-----------
E |-------------------------------------------|-----------
     D          E          G6         D
```

(verse 1)
```
          D          A/C#        G/B          A
There are times when you feel like you can t go on
          G             D/F#            Asus A
There are times when you feel like giving in
          D          A/C#        G/B          A
There are times when you feel like you can t try anymore
          G          D/F#       Asus     A
There are times of trouble in believing
```

```
Bm              F#/A#
This test of your faith will last
D/A          E/G#
As long as it takes to pass
      G                       A
 Till you have no more doubt you ll endure
        G                     A
And your faith will emerge true and pure
```

(chorus)
```
D
  No doubt it ll be alright
D/C                                  G/B
  With God it ll all work together for good
                            D/A   A
No doubt in the end it will be understood
D
  No doubt it ll all work out
D/C                                  G/B
  With faith He can move any mountain for us
                          Gm/Bb
No doubt in the power of Jesus
D/A               E/G#
  And after all is done we find out
        Em          A          D
All we really need to have is no doubt
```

```
(intro)

(verse 2)
        D         A/C#   G/B                   A
There s a time to take a reckless leap of faith
        G            D/F#          Asus A
There s a time to be cautious and wait
           D         A/C#    G/D        G
And there s a way of learning from the past
        G         D/F#            Asus A
That this time of trouble won t last

Bm                  Bm6      D         D5B
 And sometimes we want to think we know
Bm                  Bm6      D         D5B
The ways He will choose to make us grow
         G          D/F#        Em
But it s never the way of our choosing
    G/B                  A74            A7
And we can t always see what He s using

(chorus)

(bridge)
Em              Bm              A
   There will be winters in the seasons of our soul
         Bm              A                   G
With the cold and bitter wind that chills our lives
        C                    G
But our faith can be fueling our fire
          C                       A
That will warm us till springtime arrives

(chorus 2 - use A instead of Gm/Bb, then play the regular chorus)

(end with the intro)
```
