

The Pines
Phantom Limb

Tried to figure out the lyrics en chords myself as there were none available on the web, so there are some errors in the lyrics and probably the chords as well, because i can t really understand sometimes what s being sung. Perhaps someone has a better ear / is a native speaker and does understand, feel free to comment... Hope it is of enough quality for you to enjoy.

Intro:

A?	/F/A	/A?
-----------	-------------	------------

It's clear to a minor or a massive degreeer

/F/A	/A
-------------	-----------

Gotta start thinking free

Vers:

/C	/Am	/	E	/	E
-----------	------------	----------	----------	----------	----------

You owe a debt to working hands
Left with nothing left with nothing else to spend
I couldn't bare to play a game
That left and broken hearted I gotta get away

Pr. Chorus:

F+E	/F+E	/G	/C	/D	/Dm
------------	-------------	-----------	-----------	-----------	------------

Going out into the pines, Way up in the hills

F+E/G	/C	/D
--------------	-----------	-----------

All the people I left behind, Fight each other still

Chorus:

G	D	/Em	Bm	/A
----------	----------	------------	-----------	-----------

It aint such a heavy load
When your mind is free to roam
Now I know when I'm among the trees yeah, Gonna
Start living for myself, start living free

Verse:

/C	/Am	/	E	/	E
-----------	------------	----------	----------	----------	----------

Drove into a bottle neck, on a one way road
Telling me I got choices but baby I got no hope

Such a dirty mouth a defamation behind a smile
Can anything your saying make it all worth while

Pr. Chorus:

F+E / **F+E** / **G** / **C** / **D** / **Dm**

Going out into the pines, Way up in the hills

F+E/G / **C** / **D**

All the people I left behind, Fight each other still

Bridge:

G(355433) / **D**(x57775) /

Guess I had a vulnerable mind

That tuning in to July

Felt like every dream I had

Just a few little white lies

Just when you need your friend

And your armor is dying a harpor (?)

Baby your weakest hour is there

To struck a deal to pull you under

Chorus:

G **D** / **Em** **Bm** / **A**

It aint such a heavy load

When your mind is free to roam

Now I know when Iâ€™m among the trees yeah, Gonna

Start living for myself, start living free
