

Moonshine Still
Phil Carmen

Great song, couldn't find the chords anywhere so I decided to change that.

I play it with a capo on the 2:nd fret

There s an old still in the valley beside my daddy s grave
And a light burning slow, burning slow
It s the one thing that was left me, as I came back from the war
And Its still burning slow burning slow.

Chorus

No way could Billie ever need a moonshine man like me?
Illegal moonshine still you bring me down.

I tried working for a living even tried to sing the blues
From my heart burning slow, burning slow.
Turning music into money, couldn't make her change her mind
And it s so burning slow burning slow.

Chorus

No way could Billie ever need a moonshine man like me?
Illegal moonshine still you bring me down.

No way could Billie ever need a moonshine man like me?
Illegal moonshine still you bring me down.
Still you bring me down
