Well it don t matter to me what you say,

what you say

(similar)
And it don t matter to me
what you re doing alright, alright
Because I ve heard it all so many times before
Just what you re saying and
I don t really want to hear it all no more, no more
Don t wanna hear it no more

C **Em** **D** **C**
Cos there s no way that you can run

Em7 D **C** **Em7**
Cos I m gonna find you

D C Em

D **C** **Em D** **C**
And there s nobody that you can turn to

Em D **C** **Em D** **C** **Em**
cos I ll be behind you just to remind you

That it don t matter to me what you say, what you say
Well it didn t matter to me what you re doing alright, alright

It seems to me it s been too easy for you for too long
So you d better climb down before you fall and hurt your pride, your
pride
You re gonna hurt your pride

Cos there nowhere that you can run to
Cos I m gonna find you
And there s no place that you can stay
Cos I ll be behind you just to remind you

Well it don t matter to me what you do
Well it don t matter to me, I m talking to you, talking to you
Well it don t matter to me believe me
Well it don t matter to me
