Em                        Am    G    D/F#
Just a little boy in the town, town, town

Dm7                      F    G    C       B(with lick 1)
Just a little boy with a frown, frown, frown.

Em                        Am    G    D/F#
In the afternoons he goes down, down, down

Dm7                          F    G    C    Em A
To the lonely room near the lost and found de-partment.

Dm7   Dm7/G

        C              C/B       Am
There s a little boy in every man s heart

    Cdim7 D#dim7       G    Am7 G/B
Crying out,        trying out.

       C            C/B         Am
As he rushes in to hear the band start,

   Cdim7 D#dim7     G              F
So alone,    in the crowd, in the crowd.

C  B(with lick 1)

Em                              Am G     D/F#
Just a little girl on her daddy s knee,

Dm7                             F    G    C       B(with lick 1)
Just remember when she was one, two, three.

Em                              Am G   D/F#
In a little while she ll want to be free,

Dm7                             F G C    Em A
And your little girl will be seventeen to-morrow.

Dm7   Dm7/G

        C                C/B           Am
There s a little girl in every daddy s heart,

        Cdim7 D#dim7        G      Am7  G/B
Dreaming eyes,       scheming eyes.

        C                C/B           Am
When she sings for you remember your part,

        Cdim7 D#dim7        G                   F
Listen up,      when she cries, when she sighs.

C  B(with lick 1)

Em    Am  G   D/F#
Dm7   F  G   C   B(with lick 1)
Em    Am  G   D/F#
Dm7   F  G   C   Em  A
Dm7   Dm7/G

        C                C/B           Am
There s a little child in everyone s heart,

        Cdim7 D#dim7        G    Am7  G/B
Needing love,    needing love.

        C                C/B           Am
There s a little child in everyone s heart,

        Cdim7 D#dim7        G    Am7  G/B
Needing love,    needing love.

(REPEAT & FADE)

[lick 1]
after playing the B chord, play 2 single notes, F#, F, on E string to transition
```

to the
Em chord. Just the E string is tabbed here: E:--2-1--|

==========================
[CHORDS]
D/F#   3xx232
Dm7/G   3xx211
C/B   x22010
Cdim7   xx1212
D#dim7   xx4545
G/B   x20003

A quick music factoid - going from Cdim7 to D#dim7, as tabbed here, the chords
are
actually interchangeable. In other words, Cdim7 is also D#dim7, and vice versa.
And both are
also F#dim7, and Adim7. By notating the song as 2 different chords, going from
Cdim7 to
D#dim7, is just a way to show a change. I could have just as well as left it
only as Cdim7
or D#dim7.
