If love is a choice

Then I need you to hear my voice
I m the one knocking on your door making all this noise
Whatever it takes
I give it all away
I wanna show my love in a thousand ways

[Pre-Chorus]
God I wanna let you know
I love everything you are
I m waiting for the morning light to show
a fire in the dark

Shine your light, I wanna feel you now
God I need a miracle
Take my heart, make it glow
Shine your light from the inside out
I wanna be more like you
If you are the sun, I wanna be the moon

[Bridge]
I can t live a single day without you
I don t even want to try
And I won t take another step without your light
I need your light
