

Drive Me

Phillip Phillips

**F#m E F#m E**  
All I wonder if my night is gonna change  
**Bm C#m A**  
Lights moving bodies grooving but I cannot feel a thing  
**A/G# F#m E F#m**  
I ve got one step to the door  
**E Bm C#m A A/G#**  
Then I hear auuuuuu  
**F#m E F#m E**  
Light gravity pulling me in I m sinking in this space within  
**Bm C#m A A/G# F#m E F#m E**  
I can t help but giving in to this stranger with no name  
**Bm C#m A A/G#**  
Dancing like a flame, like a moth, I cannot be turned away

**F#m F#m(maj7)F#m7 F#m6 D C#m**  
Leave me, take me far from here, sweet lady

**F#m**  
Do what you do, and do what you will  
**D C#m**  
Let me get down, take a hold of the wheel  
**D E C#m D**  
Let me drive you crazy  
**F#m**  
Do what you do, and do what you will  
**D C#m**  
Let me get down, I ll be all that you feel  
**D E C#m D**  
I ll let you drive me crazy

**F#m E F#m E**  
I love your moves, I like your style With them hips you drive me wild  
**Bm C#m A**  
I m the puppet to your strings You keep on moving me  
**A/G# F#m E F#m E**  
And the world you keep on turning Turning from me now  
**Bm C#m A A/G#**  
Everything we have is moving down down down  
**Bm C#m A A/G#**  
We just keep on grooving all down down down

(repeat)

Leave me, take me so far from here, sweet lady

(repeat)

Do what you do, and do what you will

Let me get down, take a hold of the wheel

Let me drive you crazy

Do what you do, and do what you will

Let me get down, I ll be all that you feel

I ll let you drive me crazy

Do what you do, and do what you will

Let me get down, take a hold of the wheel

Baby let me drive you crazy

Do what you do, and do what you will

Let me get down, I ll be all that you feel

I ll let you drive me

Do what you do, and do what you will

Let me get down, take a hold of the wheel

Baby let me drive you crazy

Do what you do, and do what you will

Let me get down, I ll be all that you feel

I ll let you drive me crazy

Oh say oh

I ll let you drive me crazy
