[Verse]
```
D                      C
I m floating in the Blympalot
D                      C
I feel the feeling I forgot
             G        F        D
Swimming weightless in the womb
             G        F        D
Bouncing gently round the room
             G        F        D
In a minute I ll be free
             G        F        D           D
And we ll be splashing in the sea
D                      C
I feel no curiosity
D                      C
I see the path ahead of me
             G        F        D
In a minute I ll be free
             G        F        D
And we ll be splashing in the sea
             G        F        D
We hear a tiny cry
             G        F        D           D
As the ship goes sliding by
```

[Chorus]
```
   D       C      G/B     G         G          D
Free!

Free!
