Killer
Phoebe Bridgers

Phoebe Bridgers - Killer (EP version)
Standard tuning (EADGBe)
No capo

The structure is based around the 2015 EP version but I figured out the chords
from videos of Phoebe playing
the song live. The positioning of the chords over the lyrics is not perfect. You
ll figure it out :D
The chords seem strange at first but once you get the hang of how your hand
transitions from one to the next,
they start to make sense.
Much of the song is spent with your index finger on the first fret of the B
string.
Transitioning from the Am to Am/F#, just put your thumb on the low E string.
Sometimes she plays an open G string on the Fadd9 chord as a variation but I
didn t want to clutter the chart.
