Chords used: **A A/F#(F# bass note) D Bm**

Intro - These are the chords, play around with the picking, its fairly easy...

**A A/F# D Bm**

**A A/F# D**  
The night is cold, you lie with ghosts you have let down,  
**Bm A**  
An empty bed betrays you, you lie awake and wonder what went wrong.  
**A/F# D**  
The lights have died, the love they gave on borrowed time,  
**Bm**  
And you ll melt into the walls, melt into the walls,

**A A/F#**  
Your time has run out, your time has run out,  
**D Bm**  
They lied they lied baby, and I tried I tried lately...

**A A/F# D**  
I ll drink you slow, I ll drink you slow but for a price,  
**Bm A**  
Water turns to poison and loving touch gives way to lonely nights.  
**A/F# D**  
It s a fine white line, it s a fine white line you re stumbling across,  
**Bm**  
You ll melt into the walls, melt into the walls,

**A A/F#**  
Your time has run out, your time has run out,  
**D Bm**  
They lied they lied baby, and I tried I tried lately...

**D**

Please don't you ask,

**A**

**D**

Please don't you ask me how it feels,

For she was the last,

**A**

**D**

to light up my night and make me sing...

Solo Chords - **A A/F# D Bm**

(The high part that he sings after the solo I don't know what he's saying,  
but the chords are the same as the verse)

Then...

**A**

**A/F#**

Your time has run out, your time has run out,

**D**

**Bm**

**A**

They lied they lied baby, and I tried I tried lately...
