Later in the song, Rob shouts drop it

play 2x

right after the last riff, travis plays  
this riff with a phaser or flanger effect,  
then drops the effects and keeps  
playing the riff while Rob sings

```

- |-----|-----|
- |-----3--5--5--5-3-----|
- |--5--5--5-----4--|

```

Play 5x and then...

...add this variation to the riff:

```

- |-----|-----|
- |-----|-----|
- |-----|-----|
- |-----7--5-----|
- |-----3-----7-----3h5--|

```

-|--5--5--5-----5-----|--

that s pretty much it.

everything else is just repeated riffs and rhythm parts which are tabbed out for you above. Have fun.
