INTRO:

E4 A, **E4** A

G A **Bm**, **G** A

Em D **C7+** **Bm**

Em D **C7+** **B4** B

E4 A **E4** A
I can take or leave it, won't be the woebegone

G A **Bm** **G** A
Don't need a model universe to hang your pictures on

E4 A **E4** A
You hide somewhere, You die somewhere and then this senseless thought:

G A **Bm** **G** A
By hating more, you're feeling more, and that's how you get caught

Em D **C7+** **Bm**
They're never gonna make it easy, of this you can be sure

Em D **C7+** **B4** B
I'll greet you from your wilderness, I'll stay inside your door

E4 A **E4** A
There is no cage or prison, they have no fence too tall

G A **Bm** **G** A
You die more times than anyone and there's still no place to fall

Em D **C7+** **Bm**
They're never gonna keep it simple, this comes down from above

Em D **C7+** **B4** B **B4** B
I have no helm, no secret realm, I dream to be at the heart of love, a part
of love

E4 A **E4** A
I bet you can conceal it, but that's just a dead-end track

G A **Bm** **G** A
I'll cover you like the driven snow, and then I'll bring you back

E4 A **E4** A
You'll see, you'll feel like, you'll feel like a banner, unfurled and gently
blown

G A **Bm** **G** A
And there before your opening eyes the self you've never known
Em D **C7+** **Bm**

They re never gonna make it easy, of this you can be sure

You ll feel untied, beatified, and loved forever more...
