

Splendour In The Grass
Pink Martini

C

I can see you re thinking baby

F

I ve been thinking too

G

about the way we used to be

C

and how to star a new

F

Maybe I m a hopeless dreamer

C

maybe I ve got it wrong

G

but i m going where the grass is green

C

if you like to come along

C

Back when i was starting out

F

I always wanted more

G

but every time I got it

C

I still felt just like before

F

Fortune is a fickle friend

C

I m tired of chasing fate

G

and when I look into your eyes

C

I know you feel the same

C

All these years of living large

F

are starting to do a sin

G

I wont say it wasn t fun

C

but now it has to end

F

Life is moving oh so fast

C

I think we should take it slow

G

rest our heads upon the grass

C

and listen to it grow

C

Going where the hills are green

F

and the cars are few and far

G

days are full of splendor

C

and at night you can see the stars

F

Life s been moving oh so fast

C

I think we should take it slow

G

rest our heads upon the grass

F

C

and listen to it grow
