(**D**)
If winters could kill and this was the one
Em7 **G** **D**
That drove you screaming right back to where you belong
F#m **G** (barre) **D**
Oh right into my arms

(**D**)
So what if the world shut up today
Em7 **G** **D**
A ball of confusion flying wild in the sky

Oh with you by my side

(**D**)
But summer will come won't burn our skin

Under the rays that remind what it is to be young

It's not part of the show

(**D**)
I'll rest near your fire and worried brown eyes

There's no closer to heaven oh than to shine in your lies

G (barre) **F#m** **A** **D**
And I'll pra- -ise the angel that we'll all be alright

G **D** **G** **D**
Cos we all got something and we all shine on

When we all got someone we can sing about
