-----

**Am**                    **G**  
Closed eyes, falling tears

**Am**    **G**  
Different things about situations

**Am**                    **G**  
Beating heart, screaming whispers

**Am**    **G**  
What shall I do with my life?

**F**            **G**  
I hate myself

**Am**     **G**  
Show me the ray of hope

**F**  
Open the window

**Am**  
Take me to the limbo

**Cadd9 G**  
Don't give me your emo    oh

**F**  
People say I'm error

**Am**  
I see my soul in the mirror

**Cadd9 G**  
And now you feel my emo,    oh

**Am**                    **G**  
Bright clouds, pleasant sounds

**Am**    **G**  
Something that makes me happy

**Am**                    **G**  
No guarantee, please, help me

**Am**                    **G**  
Why did you leave me alone?
