```
Gravity
Pixie Lott
G
    I know that I still haven t found you,
F
    And when I wanna stand on my own too
    C
    Suddenly you start to show
    C
    Signs of what is possible
G
    Then you re back to your ways and I let me down
        C
    Tell me why I keep tryin to stay around
                        C
    When all my family they re always telling me
        G
    Be through with you
        F C
    And I know that deep down I m calling time on you
    C
    On you
    C
    On you
    Every time I m ready to leave
    I seem to be
    C
    Pulling in the wrong direction
    C
    Diving in with no protection
                            G F
    And you can t keep steering me wrong
    Oh, gravity
    C
    Pulling me back pulling me in
    C
    Why are you pulling me back pulling me in
        G
        F C C
    Just like gravity
G
    I know I betray what I m made to
F
```

And all the universe when $I$ see you
C
Cause every night the stars will shine
C
Mergin into you turn signs

## G

Anything that they can just to change my mind F

When I pass your road I can $t$ help rewine
C
What is wrong with me?
C
All that $I$ want to be is

## G

Through with you

```
\(\mathbf{F}\) C
```

And I know that deep down $I$ m calling time on you C

On you
C
On you

```
                                    G
                                    F
Every time I m ready to leave
I seem to be
C
Pulling in the wrong direction
C
Diving in with no protection
                            G F
And you can t keep steering me wrong
Oh, gravity
C
Pulling me back pulling me in
C
Why are you pulling me back pulling me in
            G F C C
Just like gravity
```
