

Want You
Pixie Lott

A E C#m B
can I talk to you
it might take a little while

A E C#m B
we ve been so confused
we need to work this out

A E C#m B
Ive been away from you and I know its been some time

A E C#m B
Its not fair to you
So I need to break it down

A E
I could be stuck in L.A.

C#m B
You may get a late call from New York

A E
I try to send a kiss to where you are

C#m B
But it just seems too far

A E
I could be off to Tokyo

C#m B
ATL then Paris and back home

A E
So I just can t be where you are

C#m B
And its breaking my heart

Repeat (A-E-C#m-B) throughout the song.

I don t want want you, keep telling myself
That I don t want you
But I can t have you
It s crazy
It s getting so hard to stay away from you
But I still miss you
I don t want want you, keep telling myself
That I don t want you
But I wanna call you
Say I m sorry but I can t be the one for you
Cause I can t be with you

Enjoy! This is my favorite song of all time!
