One two three
 She s a real left winger cause she s been down south
 And held peasants in her arms
 She said I could tell you stories that could make you cry
 What about you?
 I said Me too
 I could tell you a story that would make you cry
 And she sighed Aaahh
 I said I wanna be a singer like Lou Reed
 I like Lou Reed she said sticking her tongue in my ear
 Let s go, let s sit, let s talk
 Politics go so good with beer
 And while we re at it baby, why don t you tell me one of your biggest fears?
 I said Loosing my penis to a whore with disease
 Just kidding I said Loosing my life to a whore with disease
 I said Please... I m a humble guy with a healthy desire
 Don t give me no shit because...

G **A** **C** **G**

I tell a tale of a girl, but I call her a woman
 She s a little bit older than me
 Strong legs, strong fase, voice like milk, breasts like a cluster of grapes
 I can t escape the ways she raise me
 She ll make you feel like Solomon be one of your babies even if you had no one

(And while we re at it baby, why don t you tell me one of your biggest fears?)
I don t wanna sleep after setting my loins on fire
But that s OK because...

I ve been tired (6x)
