A new attempt:

Joe by PJ Harvey (mutated by Sean Hennessey)

The chords are: **A**, **C**, **G**, and **D**

I m not sure of the form of the song, listen to it, all the bits are here.

The rhythm (main riff - tricky!) goes something like this:

1 - 2 - 3 - 4 - 5 - 6 - 1 - 2 - 3 - 4 - 5 - 6 -
A . . A . . A . . A . . A . . C C C C C C

1 - 2 - 3 - 4 - 5 - 6 - 1 - 2 - 3 - 4 - 5 - 6 -
A . . A . . A . . A . . A . . G G G G G G

So the song goes (The lyrics are from Jason s PJH homepage, blame someone else for their inaccuracies, blame me for the guitar ones!):

Intro. (riff above)

Verse (With riff above)

A **C**
Joe ain t you my buddy be

A **G**
stay with me when i fall and die

A **C**
always thought you d come rushing in

A **G**
clear the shit out of my eye

Chorus (Of sorts)

D A D C

Verse (again)

Joe ain t you my buddy be
lay my enemies out in lines
come in close now i ll wash your feet
with my hair i ll mop them dry

Chorus (of sorts, again; but with: (I m not positive about the timing on the parts with the lyrics, but them s the chords. Scratch the muted strungs between the Second D and the A-C-A parts.)

D A C D A C A
 with my hair i ll mop them dry

D A C D A C A
 something over there i do not like

The Middle Eight:

```
e|-----| |
b|-----| |
g|-----| |
d|-----7-----5-----| |
a|--0--0--0--3^-- 3 > 5-----5--3-----3--| |
E|-----| |
```

(Key: ^ means slight bend, > means slide up to)

More verse:

joe will you be my buddy please
in this hell and day long time
when i m trusting my hated tree
coming down with your silver knife

More chorus:

coming down with your silver knife
something over there i do not like

Ending bit: (These are chords, the O meaning open strings, play the A as a power chord, the C is a single note vibratoed like mad)

A - A - O - A - A - O - A - A - O - C^

To lots of noise to FIN
