The call to arms was never true time to imbibe here s to you  
I ll tell you stories bruised and blue of drum machines and landslides  
Just one more round before we re through more psychedelic yuppie flu  
It s such a silly thing to do and now we re stuck on rewind  
The call to arms was never true let s take a ride and push it through  
Suspended animation glue blame it on apartheid  
Let s spend the night in Jimmy Choo s I ll give you coats and cheap shampoo  
I ll give you nothing else to do and now we re stuck on rewind  
The call to arms was never true I m medicated how are you  
Let s take a dive swim right through sophisticated points of view

**C Bm**

Let s follow the cops back home, follow the cops back home, let s follow the  
cops back home

**D**

And rob their houses
