

Hang On  
Plumb

Capo 2

I m so stubborn, it s how I got here  
So alone, feels like forever  
Wanna swim away and breath the open air  
But I feel so afraid, then I hear you say

Hang on when the water is rising  
Hang on when the waves are crashing  
Hang on, just don t ever let go

I m so hungry, how can I stay here?  
Starving for what I hold so dear  
Like a hurricane it takes everything from me  
Wake me from this dream

Hang on when the water is rising  
Hang on when the waves are crashing  
Hang on, just don t ever let go

Hang on when you re barely breathing  
Hang on when your heart s still beating  
Hang on, just don t ever let go

Three days, thirty years  
So hopeless, doesn t matter  
Don t say it s too late if you blink your eyes
