[Verse 1]
G                          C
There's a whole n'other conversation going on
G              C
In a parralell universe
Em                      F       C
Where nothig breaks and nothing hurts
G                       C
There's a waltz playing frozen in time
G                   C
Blades of grass on tiny bare feet
Em                  F        C
I look at you and you're looking at me

[Chorus]

Could you beam me up,

Give me a minute, I don't know what I'd say in it

Probably just stare, happy just to be there holding your face

Beam me up,

Let me be lighter, tired of being a fighter,

I think, a minutes enough,

Just beam me up.

[Verse 2]

Some black birds soaring in the sky,

Barely a breath I caught one last sight

Tell me that was you, saying goodbye,

There are times I feel the shiver and cold,
It only happens when I'm on my own,
Em                          F    C
That's how you tell me, I'm not alone

[Chorus]
    G              C
Could you beam me up,
    G                                D
Give me a minute, I don't know what I'd say in it
Em       A                      C     D

    G              C
Beam me up,
    G                                D
Let me be lighter, tired of being a fighter,
    Em      A              C
I think, a minutes enough,
    G            C             G            C
Just beam me up.
