For ruining all my fun  
                              **F5** (low)  
You say your doing it for my sake

Verse 2: same as before

I thought I did my best  
It was nearly good enough  
But all that effort I guess  
It didn t add up to very much  
It hurts me when you call  
I hate the way your thinkin  
I could have so easily had it all

Chorus:

**Eb5**                    **C#5**  
I could ve had everything,  
                              **B5**  
I could ve had everything  
                              **Bb5**  
This perfect life I m in,  
**F5**  
Screwin myself over  
**Eb5**                    **C#5**  
I could ve had everything  
                              **B5**  
I should have had everything  
                              **Bb5**  
You almost got me thinking  
**F5**  
I m screwing myself over  
Screwin myself over

Verse 3:

They say that madness is  
Doing a thing the same way  
You hope its gonna turn out different  
But ya doing it anyway  
I guess it s what I did with you

But at least I have a reason  
So my apologies, wont go to anyone  
It hurts me when you say,  
That all my close mates hate me  
I really thought I had it all

Chorus:

I could ve had everything  
I could ve had everything  
It s the perfect life for men,  
screwing myself over,  
Screwing myself over  
I could ve had everything  
I should ve had everything  
You almost got me thinking  
I m screwing myself over

**Eb5-C#5-B5-Bb5**

I coulda, I coulda, I coulda  
I coulda, I coulda, I coulda had everything  
I coulda, I coulda, I coulda  
I coulda, I coulda had everything

I came so near to thinking  
I had something  
I could ve had everything  
It s the perfect life for men  
Screwing myself over  
Could ve had everything  
I should ve had everything  
You almost got me thinking  
I m screwing myself over  
Could ve had everything  
I should ve had everything  
It s the perfect life for men  
Screwing myself over  
Could ve had everything  
I should ve had everything  
You almost got me thinking  
I m screwing myself over
