

Mean

P!nk

Mean

INTRO: E B A

[Verse 1]

E B A  
You used to hold the door for me, now you can't wait to leave  
E B A  
You used to send me flowers if you fucked up in my dreams  
E B A  
I used to make you laugh with all the silly shit I did  
E B A  
But now you roll your eyes and walk away and shake your head

C#m

When the spark has gone, and the candles are out

G#m

When the song is done and there's no more sound

A B  
Whispers turn to yellin and I'm thinkin

Chorus:

E  
How did we get so mean?  
B  
How do we just move on?  
A  
How do you feel in the morning when it comes and everything's undone?  
E  
Is it cause we wanna be free? Well that's not me  
B  
Normally I'm so strong  
A  
I just can't wake up on the floor like a thousand times before  
E  
Knowing that forever won't be

[Verse2]

Always sentimental when I think of how it was  
When love was sweet and new and we just couldn't get enough  
The shower, it reminds me you'd undress me with your eyes  
And now you never touch me and you tell me that you're tired

You know, I get so sad when it all goes bad  
And all you think about is all the fun you had  
And all those sorries ain't never gonna mean a thing, oh

How did we get so mean?  
How do we just move on?  
How do you feel in the morning when it comes and everything's undone?  
Is it cause we wanna be free? Well that's not me  
Normally I'm so strong  
I just can't wake up on the floor like a thousand times before  
Knowing that forever won't be

**B**  
Oh, we said some things that we can never take back

**A**  
It's like a train wreck tryna hit the right track

**B**  
We opened up the wine and we just let it breathe,

**A**  
But we shoulda drank it down while it was still sweet

**B**  
It all goes bad eventually

**E** **B**  
Now do we stay together cause we're scared to be alone?

**A**  
We got so used to this abuse, it kind of feels like home

**C#m** **B**  
But, my baby, I just really wanna know, oh,

CHORUS
