Intro

**Em C G D** x2

Verse 1:

**Em**                    **C**                    **G**                    **D**  
You follow every line, you wear your perfect patch and style  
**Em**                    **C**                    **G**                    **D**  
But you re like a satellite and you re drifting through the sky  
**Em**                    **C**                    **G**                    **D**  
You can t make up your mind about this or that, or anything at all  
**Em**                    **C**                    **G**                    **D**  
You go with the flow and hope to God, that no one knows it

Pre-Chorus:

**C**                    **D**  
Everything you are, everything you say  
                                 **Em**                    **G**  
Everything you do is not for you  
                                 **C**                    **D**  
Everything you feel, everything you know  
                                 **Em**                    **G**  
You found it on your favorite TV show

Chorus:

**C**                    **G**                    **D**  
And it s people like you that make me sick  
                                 **C**                    **G**                    **D**  
I m surrounded by you everywhere I look

Verse 2:

**Em**                    **C**                    **G**                    **D**  
You re telling everyone how different that you really are

**Em**                    **C**                    **G**                    **D**  
But it s been said before, so maybe you re not special after all  
**Em**                    **C**                    **G**                    **D**  
If you put the same amount of effort into letting go  
**Em**                    **C**                    **G**                    **D**  
Just act yourself and you might like it, you never know

Pre-Chorus:

**C**                    **D**  
Cause everything you want, everything you do  
   **Em**                    **G**  
You try so hard to be everyone but you  
   **C**                    **D**  
Everywhere you turn, you just gotta learn  
   **Em**                    **G**  
It s easier if you don t try so hard

Chorus

**C**                    **G**                    **D**  
And it s people like you that make me sick  
   **C**                    **G**                    **D**  
I m surrounded by you everywhere I look  
   **C**                    **G**                    **D**  
Is there somewhere I can go to get away  
   **C**                    **G**                    **D**  
Where there s truth and people mean just what they say

Bridge:

**C**    **G**        **D**  
You try too hard  
**C**    **G**                    **D**  
You just try too hard  
**C**        **G**        **D**  
You try too hard

For the solo bit just repeat Em C G D twice

Chorus

**C**                    **G**                    **D**  
And it s people like us that make me sick  
   **C**                    **G**                    **D**  
I m surrounded by you everywhere I look  
   **C**                    **G**                    **D**  
Is there somewhere I can go to get away  
   **C**                    **G**                    **D**  
Where there s truth and people mean just what they say  
**C**    **G**        **D**  
You try too hard

**C G D**  
You just try too hard

Thats it , V. simple

Rate this please, come on it only takes like 10 seconds
