

I Can See Everything

Poco

C# **G#m7**
If it seems to you that I am fading

C#m **G#m7**
Everytime I try to talk to you

C#m **G#m7**
The words I m speaking distort the view
C#m **D#m** **E**
And then I end up thinkin what can I do

B **F#9**
Now you re slippin away for a new

C#m **G#m7**
Always hoping that the day will come

C#m **G#m7**
When I can face it, won t have to run

C#m **D#m** **E**
When all there has been is yet to come

B **F#9**
When I don t hide my face from the sun

C#m **F#7** **B**
And I know it s myself it s not you

Chorus:

C# **D#m** **B** **C#**
I can see everything it s all in your smile that brings

Bbm7 **F#** **B** **C#**
All of the special things about you

C# **D#m** **B** **C#**
If you could feel the way that I do today we could

Bbm7 **F#** **B** **C#**
Find us a better way to get through

Everytime I climb into your eyes
I get so wasted and hypnotized
But there is one thing you can t disguise
That you re slippin away for a new

Baby if I could control the time
Then I could stop it and re-define
Just what is real and how I ve been so blind
I could put all the words into rhyme
And I know it s myself, it s not you

Chorus

If it seems to you that I am fading?
