**Poco**

Intro: **C# G# C# D#**

**G# C#**  
Wish that I could come  
**G# C#**  
With the mornin sun  
**G# Bbm**  
Shinin through your window  
**C# D#**  
I could be the one

**G# C#**  
To open up your day  
**G# C#**  
Ooh, words can t begin to say  
**G# Bbm**  
Feelings that are hidden in  
**C# D#**  
In such a special way  
**C# G#** Intro  
And they re just for me and you.

Nighttime comes searchin blindly  
Been needin some lovin  
I find me followin my heart back to you  
mmmm, how it reminds me

That I need no other lover  
This feelin is like no other  
And though I can t be with you now  
Let this song be another  
That s just for me and you.

So let my heart go on a-singin  
Let my song go on a-bringin  
To you lovin that you know  
Is in my heart and clingin

To days that passed on by  
Need we stop, though, to wonder why  
You know I love you, baby  
The tears in my eyes are  
Just for me and you. Yes they are.
