And they re just for me and you.

Nighttime comes searchin blindly Been needin some lovin I find me followin my heart back to you mmmm, how it reminds me

That I need no other lover
This feelin is like no other
And though I can t be with you now
Let this song be another
That s just for me and you.

So let my heart go on a-singin Let my song go on a-bringin To you lovin that you know Is in my heart and clingin

To days that passed on by
Need we stop, though, to wonder why
You know I love you, baby
The tears in my eyes are
Just for me and you. Yes they are.
