[Verse]

```
C          *          G
I ve been loving you a long time
C          *          G
Down all the years, down all the days
C          F          G
And I ve cried for all your troubles
C          #          G
Smiled at your funny little ways
```

```
C          *          G
We watched our friends grow up together
C          *          G
And we saw them as they fell
C          F          G
Some of them fell into Heaven
C          *          G
Some of them fell into Hell
```

[Verse]

I took a shelter from a shower  
And I stepped into your arms

On a rainy night in Soho  
The wind was whistling all its charms  
I sand you all my sorrows  
You told me all your joys  
Whatever happened to that old song  
To all those little girls and boys

[Verse]

Sometimes I wake up in the morning  
The gingerlady by my bed  
Covered in a cloak of silence  
I hear you talking in my head  
I m not singing for the future  
I m not dreaming of the past  
I m not talking of the first time  
I never think about the last

[Verse]

Now the song is nearly over  
We may never find out what it means  
Still there s a light I hold before me  
And you re the measure of my dreams  
The measure of my dreams
