Tabbed by Alex Nennig (al27@treesprocket.com)

The song is in standard Tuning, all barre chords, E is the  
high barre E, played on the 7th fret of the A string.  
I'm pretty sure it's in the right key, but in any case I know  
the chord progressions are right and it's all barred so if  
you don't think it's on A just move it to whatever key suits you.
