Tabbed by: Ekan
Email: skvjoeri@friskola.sundsvall.se

Tuning: Standard

The song starts with chords and then its a small bridge. Nice song, very easy.

E C#m Amaj7
I remember careless days on the waterfront
E C#m Amaj7
Birds and sidewalks, ice-cream parlors to slow us off
F#m C#m
We had everything we needed
F#m B
and the air was filled with gasoline and dust

We would walk back home again on deserted streets
Slept with open windows keeping our nightmares clean
We were ignorant and beautiful
and blinded by the brightly shining light

E Amaj7
Will it ever be repeated
E C#m
Will it follow anywhere
E Amaj7
Will we spend our time reflecting
E A B E
Are we old enough to care?

Bridge:

B|-/10-10-10-9-7-9--7-5-----7p5---5-----|
G|-----6-----|

I recall the summer heat on a sunkissed face
Hanging by the highway we had a perfect place
We were revelling each other
But we never saw the panic in our eyes

Will it ever be repeated
Will it follow anywhere
Will we spend our time reflecting

Are we old enough to care?

Could you fill me up again please
I m still thirsty and the rest of it can wait

Will it ever be repeated
Will it follow anywhere
Will we spend our time reflecting
Are we old enough to care?

Brigde

Will it ever be repeated
Will it follow anywhere
Will we spend our time reflecting
Are we old enough to care?
