

**The Sun  
Portugal. The Man**

Just chords for acoustic guitar. I took the lyrics off another site, I don't know if they're 100% correct.

[Verse 1]

**F**  
if you look real high  
**F**  
you just might find  
**Am**  
sitting in the stars  
glistening, glistening  
**F** **F**  
waiting for the band to come  
**Am**  
just waiting for that man to come  
**Dm**  
oh, I wonder...

[Chorus]

**F** **Am** **Dm** **C** **A#**  
slip on down from that sun to climb  
**F** **Am** **Dm** **C** **A#**  
down to earth and down to things like time  
**F** **Dm** **Am**  
because we are all, we are all just lovers  
**F** **Dm** **Am**  
born of earth and light like all these others

[Verse 2]

**F**  
if you're talking to the moon  
**Dm**  
the moon might sing about  
**Am**  
the universe shouting out I don't need, I don't need  
**F** **Dm** **Am**  
time i breathe in time  
**F** **Dm** **Am**  
where, where are we now?  
**F** **Dm** **Am**

we are all, we are all  
where, Where are we now?

**F**                      **Dm**      **Am**

we are all, we are all  
where, Where are we now?

**F**                      **Dm**      **Am**

we are all, we are all  
where, Where are we now?  
oh, I wonder

[Outro]

**F Dm F**
