INTRO

**Asus2 Bm**  
**Asus2 Bm F#m**

**Asus2** **Bm**  
Tomorrow we are not alone

**Bm**  
When we start again

**Bm** **Asus2**  
We can learn to rise

**Asus2** **Bm**  
Together there's a better chance

We can build it back

**Asus2**  
Right before our eyes

**Asus2** **Bm**  
And if today it falls apart

When the changing tide

**Asus2**  
Takes us out to see

**Asus2** **Bm**  
Tomorrow we are not alone

We are not alone

**F#m**  
Not alone are we

## CHORUS

**E** **Bm**  
If we re spending time, then we re saving lives  
**E** **D** **Bm** **E** **F#m**  
Cuz whatever we have known is the one thing that s no longer there  
**E** **Bm**  
So never close your eyes, we ll never close our eyes  
**E** **D** **Bm** **E** **F#m** **E**  
Cuz together we have shown that tomorrow we are not alone

The future is a synonym  
When the day begins  
Always wishing well  
Handing down a questionnaire  
To the lives we share  
Who will grow to tell  
Stories of a better age  
When they turn the page  
More than we have known  
Hoping when theyâ€™re on their own  
That tomorrow knows  
We are not alone

**E** **Bm**  
If we re spending lives, then these are saving times  
**E** **D** **Bm** **E** **F#m**  
And whatever we have known is the one thing we no longer need  
**E** **Bm**  
So never close your eyes, we ll never close our eyes  
**E** **D** **Bm** **E** **F#m**  
Cuz together we have shown that tomorrow we are not alone  
**E** **D** **Bm** **E** **F#m**  
Together we will shine and tomorrow it will be our time
