Tuning: Standard

INTRO

Asus2 Bm
Asus2 Bm F#m

Asus2 **Bm**
Tomorrow we are not alone

Bm
When we start again

Bm **Asus2**
We can learn to rise

Asus2 **Bm**
Together there's a better chance

We can build it back

Asus2
Right before our eyes

Asus2 **Bm**
And if today it falls apart

When the changing tide

Asus2
Takes us out to see

Asus2 **Bm**
Tomorrow we are not alone

We are not alone

F#m
Not alone are we

CHORUS

If we re spending time, then we re saving lives
Cuz whatever we have known is the one thing that s no longer there
So never close your eyes, we ll never close our eyes
Cuz together we have shown that tomorrow we are not alone

The future is a synonym
When the day begins
Always wishing well
Handing down a questionnaire
To the lives we share
Who will grow to tell
Stories of a better age
When they turn the page
More than we have known
Hoping when theyâ€™re on their own
That tomorrow knows
We are not alone

If we re spending lives, then these are saving times
And whatever we have known is the one thing we no longer need
So never close your eyes, we ll never close our eyes
Cuz together we have shown that tomorrow we are not alone
Together we will shine and tomorrow it will be our time
