

**Ulitin**

**Pot**

P.O.T.- Ulitin

-Well, another one from my archive of tabs. Enjoy dudes!

-All of these are, of course, barred chords.

Standard tuning: EADGBE

Intro, Verse and Chorus:

=====

**C# Eb F**

-Just keep strumming these chords. However, the strumming does change slightly at parts, mind you.

Bridge:

=====

**C#~~~ Eb~~~**

e		-5-3-2-3-4/6-7/9-7-5-3-1-----	
B		-5-3-2-3-4/6-7/9-7-5-3-1-----	
G		-----	
D		-----	
A		-----	
E		-----	

Solo:

=====

**C# Eb F**

This is still the chord progression for this part. I decided to scrap my tab of the solo since I can't accurately transcribe it due to my not having an electric guitar yet.

Outro:

=====

The chord progression goes:

**C# Eb C# F Eb C#**

End with C.

That's it!
