Im On Your Side Powderfinger

I did this in an afternoon and since there seems to be nowhere with full lyrics or

chords I have been making educated guesses except when obvious.

Chords used (in order of appearance): G Am C D Em F#m-(Not diatonic) Bm

G

You're moving through me like a ghost

G

You're the treasure I want most

G

You're the feathers on the dove on the pole

Am C

Flies around, around, around my soul

D

If I believed that I could help carry pain away from you

D C

I d put my shoulder underneath anyway you want me to

G T

When you need to buckle and bend

Am.

You can call on me to help you forget

D C G

Hey, I'm on your side and you're better than that you know

G Am C Em

I've been waiting here for you so long

G Am C En

So I could give my love to you, I've had to break someone

D C

If I believed that I could help carry pain away from you

D C

I d put my shoulder underneath anyway you want me to

```
Am
You can call on me to help you forget
Hey, I'm on your side and you're better than that you know
        Darlin' you're a long way from home
                          C
I'll do my best to help you feel you belong
Now the rose pink kiss left on your cheek,
Marks the mournfulness of distant things
It's a pain, the biggest part of belief.
Now I rush to your relief,
- and I won't Let you down
I won't fail you now
                   C (intensify chord)
I won't Let you down……...
When you need to buckle and bend
               Am
You can call on me to help you forget
Hey, I'm on your side and you're better than that you know
Hey, You're in your prime and you're better than that you know
Hey, I'm on your side
                            D
Hey, I'm on your side
```

G

When you need to buckle and bend

Hope this helps people learn this incredible song
