For every story gone untold

CADD9

Theres a secret that dissolves

G6 **DSUS/F#** **Em7**

So many pieces still unsolved

Youre not quite who you think you are

CADD9

Can see the symptoms from afar

G6 **DSUS/F#** **Em7**

Im hosing down your shooting star

G6 **DSUS/F#** **CADD9**

There you go again to fall

G6 **DSUS/F#** **CADD9**

Waiting on a friend to call

Chorus:

G **B** **C**

If you wait Im gonna drive it home

Carry all of this away from here

G B C

If you wait Im gonna drive it home

Kiss you every time the rains appear

Intro x2

Verse 2: [**Em7 CADD9 G6 DSUS/F#**]

Sometimes we wish for far away
But something always makes me stay
Far too strong a bond to try and break
You know exactly where youve been
The shooting star is hardly seen
Outshined by every other beam

Em7 G6 DSUS/F# CADD9

There you go again to fall

G6 DSUS/F# CADD9

Waiting on a friend to call

Chorus: [**G B C**]

If you wait Im gonna drive it home
Carry all of this away from here
If you wait Im gonna drive it home
Kiss you every time the rains appear

Im feeling richer Im feeling taller
I feel like every time I try to fit the picture
Ive got to keep up with all the others
Looking for whatever we were never to discover

Intro x4

CADD9 DSUS/F# Em7

Now youre ringing out slowly
Like cathedral bells
And youd sleep through heaven
Just to get to hell
Now you drop away slowly
Like the autumn leaves
But you lose your colour
When you hit the street
