

**Exterminator**

**Primal Scream**

Album: XTRMNTR

Bassist: Mani

Comments: Use a pick and a distrotion pedal for this one to get the feel right. I m not a 100% sure about the break during this song, but it sounds okay to me. The transition between the main riff and the break I have not figured though. I think Mani is doing some kind of slide while switching on the distortion pedal. Mani does a lot of varations on the main riff as well, so fool around with it a little

Main Riff:
