

Baby Please

Priscilla Renea

G **D**
I took the sun, brought it down to Earth
C **D**
I took the air, and bottled it up
G **D**
I gave you the world, gave you my all
Em **D**
I thought you deserved summer, spring, and fall
G **D**
Guess it was too much, and I pushed you away
C **D**
And all that I wanted, was for you to stay
G **D**
I apologized for all my mistakes
Em **D**
But yet you still left me, that cold winter day

G
I can't believe I'm lying here
D **Em**
With nothing but the withered rose petals on the floor
C **G**
And torn up pictures of me lying in your arms
D
A broken heart
Em **D**
Now I'm so miserable

Chorus:

G **D**
Baby please, would you say what made you leave
Em
Would you tell me so I'll know
C
And I won't do it anymore
(What's on your mind, tell me...)
G **D**
Please believe, I'll do all you ask of me
Em
If you tell me, would you tell me
C
Would you say what made you leave
D
I'm beggin you please

G **D**
I don't mean, to sound like I need you
C **D**
But you have become much a part of me
G **D**
My heart doesn't beat, got no words to speak
Em **D**
Whenever you're not here, whenever you leave
G **D**
Can't explain the feeling, but it's so much like
C **D**
Walking through the darkness, with nothing for light
G **D**
I'm prayin' you'll see, what I really need
Em **D**
I'm praying you'll come back, you'll come back to me

G
You just left me lying here,
D **Em**
With nothing but the withered rose petals on the floor
C **G**
And torn up pictures of me lying in your arms
D
A broken heart
Em **D**
Now I'm so miserable

CHORUS

G **D** **Em**
I'm tryin' my hardest to, be the, best that I can for you
G **D** **Em**
You got, so much more love in you, I know it
G
If I can just get you to show it
D **C**
Maybe we'd start over again
G **D**
You'd see the other side, of me
Em
You'd see a better side, of me
C **G**
I swallowed all my pride, I'm beggin'
D
And I know that you know it
Em **D**
I can't take no more so baby

CHORUS X2

G **D**

Oh oh ohhhh

Em

Tell me so I ll know

D

Ohhhh

G

I m begging you please,
